

Introduction

OWNER/DEVELOPER & ARCHITECT'S PERSPECTIVE

MAKE CUSTOMERS \$

- Installs faster than a brick wall.
- Has a finished appearance inside and outside. 2 for 1.
- Single-wythe masonry is structural, the cores can be grouted or insulated.

SAVES CUSTOMERS \$

- Cost per square foot is typically 10% below custom colored split-face of similar scale.
- Cost per square foot is typically 20%-25% below clay masonry.
- Special shapes are available with no up-charge.

MAKE CUSTOMERS FEEL GOOD

- Municipalities today are requiring more than split-face block from Developers. **Quik-Brik** meets the requirements of Architectural Review Boards.
- Masonry walls have the rich appearance of brick with the cost efficiencies of block.
- The ability to develop a custom color(s) specific for your project is available.
